

// TEXTURES

# Weathered Edge

Recon's Weathered Edge texture comes in five different stacked stone patterns for a warm, organized look. It is reminiscent of sandstone with horizontal striations seen in natural cliffs and crags. This texture can be incorporated in Prairie Style architectural designs.

## // WEATHERED EDGE

# Specifications

- Weathered Edge has block heights ranging from 3" to 16" and widths between 9" and 48".
- The overall size of the Recon block (48" x 16" face dimension of an individual physical block unit) is preserved even though it looks like smaller units stacked.
