Subject: No to SLV Development

Dear Chairperson,

I am writing to express my opposition to The SLV project. The proposed development would irrevocably impact the town's infrastructure and poses many adverse environmental issues. I hope the Board has been paying attention to the citizens of Manchester who have already pointed out the numerous problems this project presents.

It is outrageous to leave this important decision in the hands of the few people on a Board. It needs full disclosure and not just another zoom meeting. It is too convenient to hide behind a zoom meeting.

The residents of Manchester should be given consideration as well as complete answers. This issue demands full disclosure and a vote by the people of Manchester.

Sincerely,

Holly Giannino

Manchester
