Subject: Fwd: 40 B SLVPlease Vote NO

I would like to say that I totally agree with Mr Coyne's message and to add that the SLV project unduly strains Town sewage infrastructure, challenges and potentially endangers our water availability, will create major traffic jams, has well known safety issues, endangers the environment, is ugly to most except those making money on it. I cannot think of any long term material benefit it brings to Manchester.

This is a bad project for our Town and its consequences will weigh on future generations long after we are elsewhere. Please vote no and we will continue the battle at the State level if necessary.

Respectfully, Robert Meahl
