Subject: Final Letter

ZBA Chairperson and board-

I am listening to Attorney Dan Hill and would like to reiterate his all of his sentiments. I have followed the strategy of these projects and what I am hearing from the Board is that you are leaning towards an approval with conditions. However, I encourage the the board to reject this project, rather than approve with conditions.

I feel that following concerns: single means of egress, stormwater concerns and the intent on future use sewer of the CWMP all should you to a denial of this project.

Thank you.
